MEET SKINPEN® PRECISION: PRECISE MICROMECHANICAL SKIN REMODELING

Proven safety and efficacy through our clinical trial and 90+ validation studies.

The only U.S. engineered and manufactured precise micromechanical skin remodeling device.

Available in 35 countries with 3,500 providers worldwide and more than 500,000 treatments administered to date.

DISCOVER THE BENEFITS OF SKINPEN PRECISION

High Satisfaction

90% of clinical trial subjects would recommend to friends and family[1]

Versatile Treatment

Can be used year-round on all skin tones and types[1]

SkinPen Precision Device

Utilizes inductive charging, ensuring optimal battery charge for each procedure

Advanced Cartridge Unit

14 stainless steel needles validated to remain sharp for at least 80 minutes[1]

SkinPen®
BY CROWN AESTHETICS

SKINPEN PRECISION AND ADVANCED CARTRIDGE UNIT

The Only FDA Cleared, U.S. Engineered and Manufactured Microneedling Pen and Cartridge

90+ Validation Studies Conducted to Ensure Quality and Safety

INDUCTIVE CHARGING

Ensures full charge for every procedure

- *Eliminates risk of battery failure mid-procedure*

LED SMART TECHNOLOGY

Communicates battery level

- *Ensures an optimized procedure*

CORDLESS DESIGN

Allows for maximum versatility during procedure

- *Reduced risk of cross-contamination*

PRECISION DEPTH

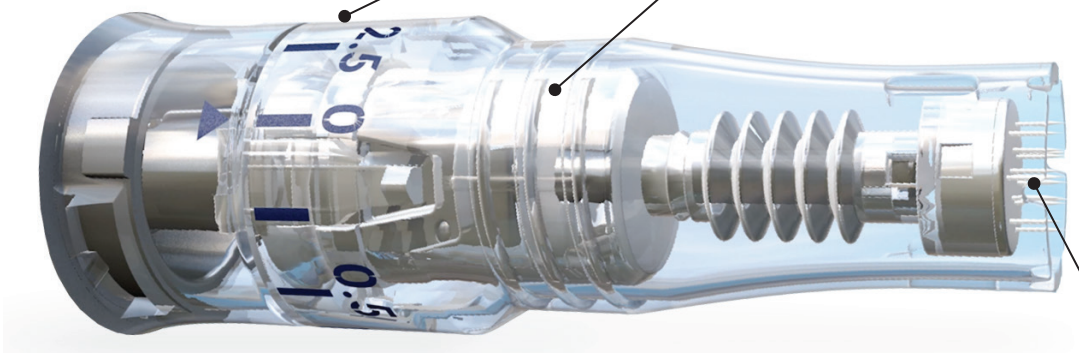
Validated to penetrate to the depth at which you set the device

- *Reaches endpoint faster*

INTERNAL RECIPROCATING MECHANISM

Validated to provide precise calibration for every procedure

- *Enhances patient safety and experience*



14 MEDICAL GRADE STAINLESS STEEL NEEDLES

Validated to remain sharp at least 80 minutes in use on scar tissue

- *Allows for larger treatment areas with one consumable cost*
